Core features

One platform, the whole lifecycle

Agreement creation

Draft contracts online or offline from standard templates, with e-stamp support.

Digital signature

Aadhaar e-Sign, DSC and OTP signing for legally valid execution.

Expiry & renewal alerts

Automatic reminders for renewals and deadlines by WhatsApp and email.

Funds-flow forecasting

Predict and track payment obligations across all contracts.

Document management

Central, searchable repository with version control.

Compliance tracking

Monitor obligations and ensure regulatory compliance.

IAM & role-based access

Secure user roles, with a full audit trail of every action.

WhatsApp integration

Share contracts and alerts with stakeholders instantly.

Save time

Automated workflows replace manual follow-ups.

Reduce risk

No more missed renewals or penalty clauses.

One source of truth

All contract data, centrally and securely held.

Audit-ready

Standard templates and complete audit trails.

Informatics India

The Software House · 25+ years in enterprise software

Continued overleaf: AI, security & support

informaticsindia.com

Smarter contracting, **built in.**

Automated workflows

AI-powered workflows save time and manual effort.

AI risk detection

Identifies contract risks and suggests mitigation steps.

Insights & forecasts

Dashboards and AI-driven analytics for decision makers.

Risk mitigation & compliance

- Automated compliance checks
- Uniform templates to minimise errors
- Systematic logs for audit readiness
- Identity & access management

Customisation & scalability

- Custom templates for industry needs
- Workflows for different contract types
- API integration with ERP, CRM & HRMS
- Multi-language support

Hosting & deployment

Your servers, your data

AccordPro 2.0 can be hosted on client-provided servers, hardened with firewalls, SSL and user authentication.

PLATFORM

C# · .NET Core

DATABASE

MS SQL Server 2022

SERVER SPACE

1 TB recommended

ACCESS

Role-based + audit logs

Training & onboarding

- Step-by-step implementation support
- User training with detailed documentation
- Administrator workshop for configuration
- 3 months of handholding after go-live

Support & maintenance

- 24/7 support by phone, email & WhatsApp
- Version upgrades in annual maintenance
- Security upgrades & patch management
- Dedicated account manager (premium)
